

Redwood Funeral Society Providers List of Prices and Services
As of September 2005 Revised June 3, 2007

Prices include costs of required permits for disposition; crematory charges, and applicable taxes.

Purchasing an urn is not required by law; the term "temporary container" is inaccurate. These prices also include a minimum alternative container, a cremated cremains container (urn) or minimum casket (burial). The prices also include sheltering of remains until permits and disposition is ready (approximately three days).

Prices do not include additional copies of Death Certificates, or services performed during weekends or holidays. Mortuary transportation may have an additional charge if removal is done from a home, or after regular business hours. This price also excludes cash advance items such as obituaries. Transportation costs are extra if over 50 miles from mortuary/cemetery.

PLEASE NOTE: Embalming is not required for **any** type of service, and the mortuaries listed below will, if possible, allow viewing and/or a funeral service without embalming the remains.
